

For ILO electronic GmbH, your privacy is important to us. This statement sets out our privacy practices with respect to the collection, use and disclosure of personal information on this site.

ILO electronic GmbH understands your desire to protect personal information and is committed to its protection. We respect your right to privacy and we have provided you this Privacy Policy to inform you how your personal information will be collected, tracked, stored, used and protected.

### **Links to other companies**

This site may contain links that take you to other Web sites. This privacy statement does not extend to the data collection practices of third parties and ILO electronic GmbH does not assume any responsibility for the privacy practices, policies or actions of third parties. You should read the individual privacy policies of such sites and make an informed decision as to whether or not you wish to use these sites based on their privacy practices.

### **Information Collected and Stored Automatically**

Personal information is information that is personally identifiable to you. Personal information may include your name, e mail address and mailing address, as the case may be. Visitors of this Web site are not requested to reveal any personal information. However, on a voluntary basis, you may provide and disclose personal information to us in using certain features of our site.

ILO electronic GmbH will never disclose, sell or lease to any third party other than our affiliates, either free of charge or for remuneration, unless we are required to do so by law.

If you submit an e-mail inquiry to this site, any personal information you might submit at the same time will only be used by ILO electronic GmbH employees or its affiliates who need to have access to it in order to respond to your inquiry.

In some cases, we collect information about you that is not personal information. Examples of such information include the type of Internet browser you are using, the type of computer operating system you are using and the domain name of the Web site and/or Internet Service Provider through which you are linked to this site. Such visitor data may be used to improve the content of this Web site and to help us determine which features and services are most important to its visitors.

### **Cookies**

This is done through the use of standard technology called cookies. Cookies are small data files that are downloaded and stored on your computer when you visit a particular Web site. By assigning a unique data element to each visitor, the Web site is then able to recognize repeat users, track usage patterns and better serve them when you go to a site. You may choose to disable cookies by turning them off in your browser. Consult your browser's documentation to learn how to do this.

### **Security**

Your personal information is treated as private, confidential information by ILO electronic GmbH and we strive to ensure that your personal information is protected at all times. To maintain the confidentiality of your personal information, this information is kept in a secure environment by ILO electronic GmbH.

However, even though ILO electronic GmbH has implemented methods designed to ensure the protection of your personal information that are considered to be effective, we cannot guarantee that such information will not be lost, used unlawfully or modified in a fraudulent manner since no data transmission over the Internet can be guaranteed to be completely confidential. Consequently, we bear no liability for the use that may be made of the information by you or any third party.

Unfortunately, no transmission of information over the internet can be guaranteed to be completely secure. Although we will do our best to protect your personal information, we cannot guarantee the security of any information you transmit to our website from your PC or the Internet Service Provider, and any transmission is at your own risk. Once we have received your information, we will use strict procedures and security features to ensure its security on our systems and to try to prevent unauthorized access.
